

## **GUN PERMITS**

**Owners of a European firearms passport may import their guns without an auxiliary permission to Greece.**

**All nations who do not belong to the European Union have to use the following procedure.**

In order to be in compliance with Greek firearms laws, a firearms permit must be issued for the duration of the 2011 World Shoot by the Greek State, for every single gun that will enter the country for the purpose of training and competition. For your assistance, it is required that a copy of the attached guns declaration form and a copy of the current shooting license in the competitor's home country be submitted for each athlete prior to the arrival of the athletes.

### **Import and Registration of Firearms and Ammunition**

It is the responsibility of the IPSC Regions before the arrival of their athletes to fill in the specific form with all the necessary information concerning the sport guns and ammunition to be brought into Greece by their competitors. Upon their arrival at the Hellenic Custom Authorities, by filling in the specific attached form, the sport equipment brought into Greece will be registered and it has to be exactly the same with the one declared by the IPSC Region.

Every other person except the competitors who will have access to the sport guns must be registered.

The registration is valid for the duration of the competitor's stay in Greece and expires on the day of his/her departure. The Permit is issued in the name of the competitor who imports the sport guns. Note that absent this permit the guns will be detained by Greek Customs upon arrival and will not be released to the shooters until all necessary paperwork has been completed and permits issued.

### **General Information**

All competitors and team officials must comply with the provisions of Greek guns laws and Customs Regulations for importation and re-exportation of guns.

The guns permit, as issued by the Hellenic State, requires that all guns will be re-exported at the end of competition and under no circumstances will remain in the country.

Please forward the enclosed information to your shooting athletes as well as any team official or team member who may handle athletes' guns in Greece.

It is recommended to all delegations to carry a list of all firearms and ammunition with themselves (Guns and Ammunition Declaration per Region), to be presented to customs or border police upon request together with the invitation.

Completed and scanned individual form, the current shooting license in the competitor's home country and the Guns and Ammunition Declaration per Region and must be submitted by **10 August 2023** to : [ehc-2023@skoe.gr](mailto:ehc-2023@skoe.gr)
